

**HOSPITAL SERVICES REIMBURSEMENT**

The Division of Vocational Rehabilitation (DVR) will reimburse hospital services under the Medicaid Reimbursement Program outlined in the **Florida Medicaid Hospital Services Coverage and Limitations Handbook** administered by the Agency for Health Care Administration. DVR will reimburse hospitals as follows:

- **Inpatient hospital care and treatment:** DVR will pay the Medicaid per diem rate or the All Patients Refined Diagnosis Related Group (APR DRG). These rates cover all services and items furnished during a 24-hour period.

Please check the type of Medicaid payment methodology for **inpatient** care and treatment your hospital accepts:

Per Diem rate                      or                       ARP DRG

- **Outpatient hospital services:** DVR will pay the Medicaid per diem rate by a line item. A line item rate applies one time to each covered outpatient revenue center code billed, regardless of the charges.
- **Outpatient laboratory and pathology services:** DVR will pay the lesser amount charged or a technical fee. These services are identified by a 5-digit code that must accompany laboratory and pathology revenue codes 0300 through 0314.

By signing this acknowledgement form, you agree to be reimbursed by the DVR at the Florida Medicaid Program rates for inpatient (checked above) and outpatient services.
