Individuals with Hearing Loss

Vocational Rehabilitation helps individuals with disabilities find meaningful employment.

Vocational Rehabilitation (VR) is a division of Florida's Department of Education whose mission is to assist people with disabilities, ages 14 and older, in securing competitive, integrated employment. Through its services to individuals who are deaf, late-deafened, hard of hearing, or deafblind, VR upholds the philosophy that employment is possible for anyone when the right supports are in place.

For individuals with hearing loss, VR can assist eligible individuals with accommodations that enable you to communicate confidently during appointments with your VR counselor, during job interviews and while working. The goal is for you to be able to find and keep a job or select a career that will lead to enhanced independence.
